EDUCATION

Bachelor of Technology in Computer Science and Engineering

Graphic Era Hill University, Dehradun, Uttarakhand
2023 – 2027 | CGPA: 7.86/10

Senior Secondary (Class XII)

Shri Guru Ram Rai Public School, Dehradun | CBSE
2023 | Percentage: 77.17%

Secondary (Class X)

Shri Guru Ram Rai Public School, Dehradun | CBSE
2021 | Percentage: 81.60%

TECHNICAL SKILLS

C++, HTML, CSS, React.js, Node.js, Express.js, MongoDB, Git, GitHub, Postman, REST APIs, DSA, OOP

PROJECTS

NewsMania – Personalized News Aggregator- React.js | Node.js | Express.js | MongoDB | JWT | NewsAPI

Developed a full-stack MERN news aggregation platform with secure JWT-based authentication. Integrated NewsAPI to provide real-time news, keyword search, category-wise filtering, personalized recommendations, and bookmark management. Designed responsive React interfaces and RESTful APIs with MongoDB for efficient data storage and user management. **GitHub:** <https://github.com/srishti1863-droid/NewsMania>

AI Resume Optimizer- Tech Stack: React.js | Node.js | Express.js | MongoDB | Gemini API

Built a full-stack AI application that evaluates resumes, provides ATS-friendly feedback, identifies missing keywords, and suggests content improvements using the Gemini API. Designed secure RESTful APIs and a responsive React-based user interface.

ACHIEVEMENTS/CERTIFICATIONS

Deloitte Data Analytics Virtual Internship

Applied data analytics concepts to interpret business data, generate insights, and support data-driven decision-making using real-world scenarios.

Deloitte Cyber Virtual Internship

Developed foundational knowledge of cybersecurity, threat identification, risk assessment, and incident response through practical business scenarios.

Salesforce Virtual Internship Program 2025

Gained hands-on experience with Salesforce CRM, cloud technologies, and business process automation through practical learning modules.

Google Arcade – Arcade Adventure: App Development & Cloud Observability

Completed interactive cloud labs focused on application development, cloud services, and observability using Google Cloud technologies.
